9/11 WTC Biggest Gold Heist in History: \$300 Billion in Bars

How Much Gold Was Under WTC Complex?

August 27, 2011 <http://americanfreepress.net/?p=298> (<http://americanfreepress.net/?p=298>)

By Keith Johnson –

Earlier this year, a coin dealership ran a television ad for a 10th-anniversary 9-11 commemorative coin that was allegedly “clad in .999 pure silver actually recovered from vaults beneath the ashes of Ground Zero.”

That commercial provoked retired New York Police Department Capt. Tom DePrisco to tell *The New York Daily News* in late January, “That’s pure [expletive deleted].”

In the aftermath of the devastating attacks on 9-11, DePrisco was assigned to the Office of Emergency Management to assist in recovering precious metals buried in a two-story vault beneath the rubble of Trade Center (WTC) Building 4 and transfer it to another vault at the Brooklyn Naval Yard World.

walked into the vault. He said, “It was like a scene out of [the James Bond movie] Goldfinger . . . endless neat stacks of gold, silver and platinum bars—a half-billion dollars worth.”

According to *The New York Daily News* article, “We never recovered any other precious metals,” said DePrisco. “So it boils my blood that anyone would sell a fake coin claiming to be made with silver recovered from Ground Zero.”

The Daily News has since contacted the dealer of these coins, who responded by saying that they were in fact authentic. The company said they have a complete chain of custody for the merchandise and claim to have bought these items from a company that purchased them from a bank “storing silver bars, coins etc. in its vaults under the WTC.”

The fate of nearly \$1 billion worth of gold, silver and other precious metals stored beneath the WTC before 9-11 continues to baffle many.

To this day, only \$230 million has officially been accounted for. All of that was retrieved from the previously mentioned, two-level, 6,000-square-foot vault maintained by the Bank of Nova Scotia. They reportedly lost \$200 million in gold as a result of the attacks. However, other estimates suggest there was an additional \$750-million worth of precious metals that may have been stored in other vaults or hurriedly evacuated from the Nova Scotia vault before the skyscrapers came down.

According to a Nov. 1, 2001 article in *The London Times*: “The Comex metals trading division of the New York Mercantile Exchange kept 3,800 gold bars—weighing 12 tons and worth more than \$100 million—in vaults in the building’s [apparently Building 5—Ed.] basement. Comex also held almost 800,000 ounces of gold there on behalf of others with a value of about \$220 million. It also held more than 102 million ounces of silver, worth [an estimated] \$430 million.”

The Times piece also reported that some of the recovered gold may have been found outside this vault.

“The gold, which was discovered . . . was being transported through the basement of the building on the morning of Sept. 11,” reads the article. “Recovery workers reached a service tunnel and discovered a 10-wheel [truck] and a number of cars [that] had been crushed by falling steel.”

Another article appearing in *The New York Daily News* around that same time corroborates this story:

“Sources said the gold was found in a delivery tunnel under 5 World Trade Center.”

If these accounts are true, they strongly conflict with the official story, which alleges that all the recovered metals were found inside the Bank of Nova Scotia vault under WTC 4. This has led some to speculate that insiders with short-term advanced knowledge of the attacks made a frantic effort to transfer the treasures by truck to a safe, undisclosed location.

Was the uncovered 10-wheel truck the last in a fleet of gold-laden rigs with an armed security escort? Did personnel decide to abandon these vehicles and flee on foot as they heard the structure above them giving way? Answers to these questions may never be fully addressed so long as the federal government refuses to revisit the 9-11 tragedy with an adequate investigation.

Meanwhile, some insist the official story is an unabashed lie and that another reason behind the 9-11 attacks was to pull off the biggest gold heist in history. One of the more outrageous claims along this vein comes from former mob boss Tony Gambino, who declared in a 2007 radio interview: “I know for a fact that Bush [and other] U.S. government leaders had prior knowledge and helped organize 9-11. They did it for many obvious reasons, one being to instigate a war in Iraq. But they also did it to get their hands on all the gold that was hidden below the [WTC].”

USA , like tiny nation of ICELAND should repudiate the “national Debt” the privately owned Federal Reserve Bank claims as a giant global PONZI scheme, and Nationalize their holdings, arrest the Inter-National Bankers, and demand the return of the Billions of gold stolen before 911, which was the cover up for stealing the gold.

Who Stole the GOLD on 9/11?

The BIG Question is, was there any gold in the vaults or had it been stolen before the **FALSE FLAG/INSIDE JOB** of 9/11?

Did the gold wind up in Israel’s Negev Desert, where it was cast into a giant, golden calf?:)

Picture of the purloined gold that is now in Israel, being worshiped by the Zionist thieves in ‘StolenLand.’

Damn, isn't Bin Laden and 'al CIA duh' shrewd? They not only could evade the ENTIRE intelligence apparatus of the Western world, cause havoc at NORAD so they wouldn't be able to protect the USA on 9/11, knew exactly where those blind radar spots that can't pick up errant jets (<http://www.washingtonpost.com/ac2/wp-dyn?pagename=article&contentId=A32597-2001Nov2¬Found=true>) **and also knew where to steal several billion dollars worth of gold!!!**

Giuliani's decision will mean no more than 25 at a time can do so in future.

So far, the bodies or remains of 101 firefighters have been recovered, out of the 343 who died at the World Trade Center on 9/11. According to the IAFF, the mayor refuses to even meet with local union presidents about the decision [to stop looking for FF remains AFTER the gold was found]. Due to the ensuing public outcry, Giuliani will modify his policy and allow firefighters back on the pile at Ground Zero. The remains of another 113 firefighters will subsequently be found. **The IAFF later alleges that "the mayor's switch to a scoop-and-dump co-incident with the final removal of tens of millions of dollars of gold, silver and other assets of the Bank of Nova Scotia that were buried beneath what was once the towers"** (see (Mid-October-mid November 2001)). "Once the money was out, Giuliani sided with the developers that opposed a lengthy recovery effort, and ordered the scoop-and-dump operation so they could proceed with redevelopment."

Missing Building Contents (<http://911research.wtc7.net/wtc/evidence/contents.html>)

Accounts of Ground Zero agree on the thoroughness of the destruction. What remained was primarily the structural steel, other metal pieces, paper, and dust. Not only were the non-metallic parts of the building — such as concrete and glass — pulverized, so were the building contents, as firefighter Joe Casaliggi recalls.

“You have 10-story buildings that leave more debris than these two 100-story towers, Where the f___ is everything? A serious week-long search and we’ve found 200 [bodies] in a pile of 5,000? What’s going on? Where is everyone? Why aren’t we finding more bodies? Cause it’s all vaporized — turned to dust. We’re breathing people in that dust.”

The levelings may have destroyed evidence of crimes beyond just plane impacts and building collapses. There were vaults of gold bullion in the basement of 4 World Trade Center, **but the amount of gold recovered seems**

to be only a small fraction of the amount known to be stored there. Was the gold stolen? Being a dense, malleable metal, gold should not have been broken up by whatever destroyed the towers. Gold is also one of the

most inert elements, and is extremely unlikely to participate in chemical reactions. **Even if it were possible to pulverize and disperse the gold, its storage in the basement of WTC 4 assured that it escaped the violent forces that pulverized the towers.**

Or was the REAL gold stolen and replaced by gold-colored tungsten bars, which now seem to be popping up all over the world?

9/11 was a **FALSE FLAG/INSIDE JOB** pulled off by the White House; elements of the CIA and FBI and ISRAEL.

The 300 billion in gold pales in comparison with the TRILLIONS stolen from American 401k accounts and pension funds, by those “Too Big to Fail” Wall Street bankster gangsters, who hid their thefts behind the ‘War of Terror’ and using their Zionist owned, Jewish run MSM to scare Americans non-stop with horrifying tales of non-existent Muslim boogymen.

Ron Paul REQUEST AUDIT FOR FORT KNOX AND IF THE IMF/FEDERAL RESERVE HAS THE GOLD

Are the gold bars in Fort Knox really made of the precious metal? Or has the government secretly sold off the stockpile and replaced it with tungsten bars that are painted gold?

As a postscript to the story, CNBC asked for a tour of Fort Knox to film the gold, since our only footage of Fort Knox is from 1974. **An official at the Mint told us that not he was not aware that any member of Congress had toured the facility since that year. Fort Knox is “a closed facility,” the official said.**

I read that millions of dollars of Gold and Silver Bullion was stolen and went missing before/ after the 911 attack. I haven't researched this topic yet and haven't seen it discussed in this forum. Was the bullion stolen or returned to its owners? Could someone please give a truthful answer with evidence to back what really occurred, thanks

this will be immediatly thrown under the "Its a Conspiracy train" by some of the folks here after it starts recieving hits.....

Yes sir there are some very glaring discrepancies as to what happened ot all of the gold stored in the basement vaults of the WTC

you are looking for a defenitive answer? of course YOU KNOW that there is NO explanation and actually there has been NO official anything on this issue

there had been some reports made shortly after the attacks that place armored cars abandoned in some of the OLD SUBWAY tunnels that lead directly to the WTC basement

there is wide rumors that there was a SUBSTANTIAL amount of Gold and silver Bullion stored in the wtc center vaults .to this date myself i have found nothing but dead ends concerning this issue.Mt Initial thoughts are this is one of the many "Stories" that was out on the collapse to divert attention away from what really happened

Now interestingly enpugh I was unable to work on 9-11 i was at home watching TV and saw everything as it unfolded, not just bits and pieces mind you i watched the tv for almost 36 straight hours on that day. DO ANY OF YOU REMEMBER shortly after the pentagon attack actually within MINUTES of this there were reports on ABC and CBS that ANOTHER explosion had occurred AROUND THE CORNER FROM THE PENTAGON just out of camera sight there was visible plumes of smoke and the reporters mention the explosion it was in the Financial district very close to the pentagon presumably in bankers row

there were 2 or 3 mentions of this and then it dissapeared NEVER TO BE MENTIONED AGAIN i saw it with my own eyes i watched them report it and i NEVER heard of it again NOR can i find a SINGLE reference to it on the web or in news archives.....interesting all things considered...there were reports that the WTC had

Missing Gold

A King's Ransom in Precious Metals Seems to have Disappeared

There are rumors that \$160 billion in gold bullion was stored under the World Trade Center. Yet the only published articles about recovered gold mention only around \$200 million worth of gold. All of the reports of recovered precious metals appear to refer to a removal operation conducted in late October of 2001. On Nov. 1, Mayor Rudolph Giuliani announced that “more than \$230 million” worth of gold and silver bars that had been stored in a bomb-proof vault had been recovered.

A New York Times article contained: 1 (<http://911research.w.../gold.html#ref1> (<http://911research.w.../gold.html#ref1>))

Two Brinks trucks were at ground zero on Wednesday to start hauling away the \$200 million in gold and silver that the Bank of Nova Scotia had stored in a vault under the trade center ... A team of 30 firefighters and police officers are helping to move the metals, a task that can be measured practically down to the flake but that has been rounded off at 379,036 ounces of gold and 29,942,619 ounces of silver .. Another article gave a figure of \$650 million to the value of gold in the 4 WTC vault.

Unknown to most people at the time, \$650 million in gold and silver was being kept in a special vault four floors beneath Four World Trade Center. The gold and silver were recently recovered.

An article in the TimesOnline gives the following rundown of precious metals that were being stored in WTC vaults belonging to Comex. 2 (<http://911research.w.../gold.html#ref2> (<http://911research.wtc7.net/wtc/evidence/gold.html#ref2>))

Comex metals trading – 3,800 gold bars weighing 12 tonnes and worth more than \$100 million

Comex clients – 800,000 ounces of gold with a value of about \$220 million

Comex clients – 102 million ounces of silver, worth \$430 million

Bank of Nova Scotia – \$200 million of gold That totals \$950 million.

There appear to be no reports of precious metals discovered between November of 2001 and the completion of excavation several months later. It would seem that at least the better part of a billion dollars worth of precious metals went missing. It is not plausible that whatever destroyed the towers vaporized gold and silver, which are dense, inert metals that are extremely unlikely to participate in chemical reactions with other materials.

The circumstances surrounding part of the gold that was recovered offer clues to what may have happened to the unrecovered gold. According to reports, two truckloads of gold were found in a delivery tunnel under 5 World Trade Center in a 10-wheel lorry which had been crushed by falling steel. The vault was under 4 World Trade Center, which was closer to the South Tower, and more heavily damaged. There were no bodies discov-

Precious Metals in WTC 4 Vault: Only a Fraction Recovered?

the television documentary *America Rebuilds* under the section *Uncovering Property*. The page, entitled *A Treasure in Silver and Gold*, describes the vault as two levels of 3,000 square feet each. See the source (http://www.pbs.org/americanrebuilds/engineering/engineering_property_02.html) for the full-sized image. The page credits images to Leslie E. Robertson and Associates.

The basement of 4 World Trade Center (<http://911research.wtc7.net/wtc/attack/wtc4.html>) housed vaults used to store gold and silver bullion. Published articles about precious metals recovered from the World Trade Center ruins in the aftermath of the attack mention less than \$300 million worth of gold. All such reports appear to refer to a removal operation conducted in late October of 2001. On Nov. 1, Mayor Rudolph Giuliani announced that “more than \$230 million” worth of gold and silver bars that had been stored in a bomb-proof vault had been recovered. A *New York Times* article contained:

Two Brinks trucks were at ground zero on Wednesday to start hauling away the \$200 million in gold and silver that the Bank of Nova Scotia had stored in a vault under the trade center ... A team of 30 firefighters and police officers are helping to move the metals, a task that can be measured practically down to the flake but that has been rounded off at 379,036 ounces of gold and 29,942,619 ounces of silver ..¹ (<http://911research.wtc7.net/wtc/evidence/gold.html#ref1>)

Reports describing the contents of the vaults before the attack suggest that nearly \$1 billion in precious metals was stored in the vaults. A figure of \$650 million in a *National Real Estate Investor* article published after the attack, at 10:23 PM

Unknown to most people at the time, \$650 million in gold and silver was being kept in a special vault four floors beneath Four World Trade Center.² (<http://911research.wtc7.net/wtc/evidence/gold.html#ref2>)

An article in the *TimesOnline* gives the following rundown of precious metals that were being stored in the WTC vault belonging to Comex.³ (<http://911research.wtc7.net/wtc/evidence/gold.html#ref3>)

- Comex metals trading – 3,800 gold bars weighing 12 tonnes and worth more than \$100 million
- Comex clients – 800,000 ounces of gold with a value of about \$220 million
- Comex clients – 102 million ounces of silver, worth \$430 million
- Bank of Nova Scotia – \$200 million of gold

The *TimesOnline* article is not clear as to whether the \$200 million in gold reported by the Bank of Nova Scotia was part of the \$220 million in gold held by Comex for clients. If so, the total is \$750 million; otherwise \$950 million.

There appear to be no reports of precious metals discovered between November of 2001 and the completion of excavation several months later. Assuming that the above reports described the value of precious metals in the vaults before the attack, and that the \$230 million mentioned by Giuliani represented the approximate value of metals recovered, it would seem that at least the better part of a billion dollars worth of precious metals went missing. (It is not plausible, of course, that whatever destroyed the towers vaporized gold and silver, which are dense, inert metals that are extremely unlikely to participate in chemical reactions with other materials.)

An article in *The Sierra Times* suggests that gold was recovered from two trucks in a tunnel under 5 World Trade Center (<http://911research.wtc7.net/wtc/attack/wtc5.html>), giving rise to suspicions that the trucks were being used to remove the gold from the vaults before the South Tower fell.⁴ (<http://911research.wtc7.net/wtc/evidence/gold.html#ref4>) However, this report may have been based on an erroneous reading of other reports that describe the removal of crushed vehicles from a tunnel under 5 WTC in order to gain access to the vaults under 4 WTC to remove their contents.⁵ (<http://911research.wtc7.net/wtc/evidence/gold.html#ref5>)

Why is there this huge discrepancy between the value of gold and silver reported recovered, and the value reported to have been stored in the vaults? There are a number of possible explanations, from outright theft using the attack as cover, to insurance fraud. Until there is a genuine investigation that probes all the relevant facts and circumstances surrounding the attack, we can only speculate.

\$1.08 TRILLION Worth of Gold, 102 MILLION oz of SILVER

<http://silverdoctors.blogspot.ca/2011/09/108-trillion-worth-of-gold-was-stolen.html> (<http://silverdoctors.blogspot.ca/2011/09/108-trillion-worth-of-gold-was-stolen.html>)

On the 10 year anniversary of September 11th, SilverDoctors believes the best and most appropriate way to honor those who lost their lives, their father, mother, spouse, son, daughter, or loved one on that fateful day is to help expose their real murderers.

This is the only acceptable way to honor those who lost their lives- by exposing the dastardly actions of the murderers who took their lives.

For those who believe the “Official” story of 911, please realize that this is in no way an attempt to do anything other than honor those who lost their lives by exposing the truth of who executed the dastardly actions on 911, and why.

First, the why.

It's always *ALL ABOUT THE MONEY*.

\$1.08 TRILLION WORTH OF GOLD STORED UNDER THE WORLD TRADE CENTER WAS NEVER RECOVERED!

***UPDATE**– Arther has provided a link from the 911 research commission that approximately **65 tons of gold** were stolen from the WTC, but perhaps even more interesting, the official statistics indicate **102 MILLION OZ OF SILVER WERE LOST/STOLEN in the WTC!**

This is equal to the TOTAL CURRENT INVENTORY OF COMEX SILVER!

<http://911research.wtc7.net/wtc/evidence/gold.html> (<http://911research.wtc7.net/wtc/evidence/gold.html>)

(Conveniently the source of the statistics, TimesOnline, has removed the article including these stats)

Out of **\$167 Billion** (2001 value) worth of gold stored under World Trade Center building **4**, only **\$200 million** was recovered....under WTC building **5**, in an empty delivery truck, with an escort of empty armed cars.

\$166.8 Billion worth of lost/stolen gold.

Examine gold's price chart for September, 2001.

The value of an ounce of gold on September 11, 2001 was \$287 (not much more than the cost of a 1/10th oz eagle in 2011)

Fast forward one decade to Sept 11, 2011, and the value of the WTC stolen gold is **\$1,080.77 Billion**, or **\$1.08 TRILLION**.

What Happened to the WTC Gold on 9/11??

Published on Nov 24, 2014

Now for the WHO.

Do you think it was Muslims from Afghanistan who trucked off **\$1.08 Trillion worth of gold**, and **\$4 Billion worth of silver** from underneath the World Trade Center? We don't either.

George Bush on two different occasions publicly stated he was watching as the 1st plane flew into the Twin Towers.

Clearly the **ONLY** people watching live as the 1st plane flew into the Twin Towers were those who were planning/expecting the attack.

Bush saw Flight 11 hit the North Tower live on TV?

Bush saw Flight 11 hit the North Tower live on TV?

The BBC reports that building 7 had collapsed (building 7 is visible throughout the entire interview as the most prominent building in the background) 23 minutes PRIOR to its sudden 6.5 second complete demolition. *OOPS.*

BBC says Building 7 collapsed, while it's STILL standing..!!

Finally, please view the 911 Coincidences video series on Youtube for the complete expose that will clearly reveal the WHO to be without a shadow of a doubt, **elitist banksters**.

We will not forget 911, we will not forget those who lost their lives, and we will also not forget the b*stards who took their lives for ill-gotten gain and power.

We will not forget.

We will strike back the only way we know how, by revealing the truth, and by encouraging everyone to purchase physical gold and silver, and destroy the root of the banksters' fiat power.

The mystery of \$6 billion that seemed to go missing (<http://www.cnn.com/video/#/video/bestoftv/2011/06/13/exp.tsr.todd.missing.iraq.cash.cnn>) in the early days of the Iraq war has been resolved, according to a new report.

New evidence shows most of that money, \$6.6 billion, did not go astray in that chaotic period, but ended up where it was supposed to be, under the control of the Iraqi government, according to a report from the office of the Special Inspector General for Iraq Reconstruction or SIGIR.

The report details the transfer of cash from the U.S. to the Central Bank of Iraq. Much of it was originally assets of Iraq, some was part of the Oil for Food program imposed during the regime of former Iraqi leader Saddam Hussein and some was funneled through the United Nations for relief and reconstruction projects, according to the report.

The report focuses on money left over from shipments of more than \$10 billion in U.S. currency shipped to Iraq – much of it in shrink-wrapped bricks of hundred dollars bills – and the \$6.6 billion remaining when the temporary overseer of Iraq, the Coalitional Provisional Authority, went out of business in the summer of 2004 with the creation of a new Iraqi government.

Earlier, the money had seemed to be missing. The inspector general himself, Stuart Bowen, said flatly in June, “It has not been properly accounted for.”

The official accounting had used more bland language. “SIGIR concluded that weaknesses in DoD’s financial and management controls left it unable to properly account for and articulate the disposition of remaining DFI (Development Fund for Iraq) funds,” a 2010 report said.

But the inspector general’s new report says almost all the \$6.6 billion was properly handed over to Iraq and its Central Bank. “SIGIR was able to account for the unexpended DFI funds remaining in DFI accounts when the CPA (Coalitional Provisional Authority) dissolved in June 2004,” the new report says. “Sufficient evidence exists showing that almost all of the remaining \$6.6 billion remaining was transferred to actual and legal CBI (Central Bank of Iraq) control.”

While the bulk of the money was transferred to the Central Bank of Iraq, \$217 million remained in a vault in a former presidential palace and was held by the U.S. Defense Department and most was doled out for a variety of projects and payrolls, the report says.

“In February 2008, SIGIR conducted a cash count at the palace vault and determined that \$24.45 million remained,” the report says, pointing out that the Pentagon returned this money to Iraq the next month. Now further SIGIR reports are expected in January 2012 on how the Defense Department used other money for small projects and to pay contractors.

“At the same time, SIGIR will report on about \$2.8 billion more in DFI funds used by DoD agencies, including the U.S. Army Corps of Engineers, for reconstruction projects provided under a separate agreement executed with Iraq in June 2004,” the report says.

Shalom,

When I saw the picture of the Golden Calf, I got my Eureka moment:

Read Exodus chapter 32

And pay particular attention to verses 27 to 29!

27 Then he said to them, “This is what the Lord, the God of Israel, says: ‘Each man strap a sword to his side. Go back and forth through the camp from one end to the other, each killing his brother and friend and neighbor.’” 28 The Levites did as Moses commanded, and that day about three thousand (3000) of the people died. 29 Then Moses said, “You have been set apart to the Lord today, for you were against your own sons and brothers, and he has blessed you this day.”

Exodus 12:35-38

35 The Israelites did as Moses instructed and asked the Egyptians for articles of silver and gold and for clothing. 36 The Lord had made the Egyptians favorably disposed toward the people, and they gave them what they asked for; so they PLUNDERED the Egyptians.

Slightly off topic:

It were the UNPP's (underground nuclear power plants) that were installed beneath the towers decades ago. There was never a gold stash there, all the armoured vans "moving the gold in and out of the towers" were actually uranium filled cars fueling the active reactors.

I want to know who got the hot dog cart? Nobody is asking the real questions around here. Like Where did the hot dog cart go whern the planes hit the building? Why were they not selling dogs when the planes hit? Every other day they were there, building fall down day and no hot dog vendors? Why? Who tipped them off. Follow the hot dog trail and you will find the rats that smashed the buildings. Hot dog vendors are not the government... or are they? Illuminati Card Game 1995 Steve Jackson shows a card called Agent in Place. It is a hot dog vendor talking to someone via a mustard bottle with an antenna. It aint not BS. Hot Dog vendors are the eyes and ears of teh city. They get a piece of the action. They are like the snitches snitch. You needs to find the hot dog vendor who was there the day before. Then follow the trail of mustard. It will lead you to the rat salad. #moviestarweb The DON

[You know, forget the hot-dog cart, Joey... and sign up for 3rd grade]

Once again, the U.S. Guv has duped it's citizens into believing 'terrorists' were to blame for the horrific 9-11 US disaster [Yes, some complicit suicidal foreign pilots were hired as 'hitmen' to carry off the operation, but the originators of the plan were staged-and-approved by the stupidest POTUS the US public never voted for — what? you don't believe US elections are rigged?? – whose goat are you milking???]. Blaming others is a well-designed 'fait accompli' by those within the most secret tribal council residing

Why isn't anyone in today's world (2015) talking about the removal of the STOLEN GOLD, SILVER and precious metals and stones which were vaulted beneath the towers...??? Again, Why not?

I'll tell you why: The US Guv' doesn't want you to know, period. ...and they've made every effort to sublimate the truth into a 'believable' story for we underlings who they rule – and control (the media helps because they make enormous amounts of money publishing, mostly, hearsay).

and because most of us are 'starved for affection' – and we get a kind of 'love' from the media in our evenings – we believe them). Also, and because we're lazy, we don't dig very deeply for the real truth. If we can't get it in 15 seconds from the INet, we mostly give up.

Sad. Very sad. We're a nation (hell, a global-full of nationS) of morons hoping to find a magic cure for our stupidity we can pick up on the sidewalk. Then, we have an excuse not to sit down and 'reason' inside our own brain.

WTFU, find a reason to get out of bed besides television, alcohol, sex and drugs. Honestly, it really isn't that difficult. Your bowels move all by themselves don't they?... and they don't even have a separate brain.

Don't forget we have a group of men and woman that serve Satan, not God. In the same way, we have these same people that describe themselves as patriots. When you take the time to research, Black Eagle Trust, here is a good link to read about. http://www.wanttoknow.info/911/black_eagle_trust_fund

Knowing history and understanding criminals in government, will help you tell truths from lies you are being told. Also consider this about 911. Who actually benefited? Look into the recorded facts. Who made money, was promoted, and was never disciplined! What military industrial contractors were given even more defense contracts? One last statement, research who planned and covered up Iran/Contra, they are the same men in government that did the same thing for 911.

Remember this: Always for a crime to be committed you always have this. A means, motive, and opportunity. And you always follow the money! The love of money is the root of ALL evil!

Umm... I was brought here because I was just reading the Last Will and Testament of Ferdinand Marcos and read this part:

"brought by the undersigned to the United States of America worth \$ 20, 000, 000, 000 or 10, 000 metric tons of gold bars that preserved beneath the World Trade Center in New York City, USA that directly intended for the welfare and benefit of the People of the Philippine Islands".

Then I remembered the tragic 9/11 (Rest in peace to the victims who died). So I just searched if they found gold under the World Trade Center out of curiosity. And it turns out there really is gold.

Did the gold originally belong to the Philippines?

I bought a home in Midland, TX in 2008, which is the hometown of George and Laura Bush. My home is right next to a secluded truck unloading lane behind a Home Depot store. The previous homeowner dies a few weeks before I closed on it and I now believe he was murdered by the same people who later tried to kill me. I was shot from ground floor level two weeks after reporting a suspected tunnel to the El Paso and Midland DEA who never looked. A person under my home shot me! While I was in the hospital a group of police were caught on camera covering up this capital attempted murder but in spite of security camera pictures, police and medical reports, I can't get a news story on it and I can't get them arrested. Since then I've had five people tell me about a million dollar underground facility within a half block of my home. I also learned that the brother-in-law of US Congressman Mike Conaway used to live across the street from this very special home. My next door neighbor had told me, "The last four people that lived in that house, didn't live there long! HAHAAHA" which made me believe this secret underground facility has been here a long time. I suspect it was put in back when GW was President and it makes since that he knows about it. I think this would be a GREAT place to hide the 911 gold complete with a truck unloading lane. You can find more on my Facebook (BuddyWebb.353) and YouTube channel. (BuddyWebb) I hope that whatever is underground is revealed before I'm silenced as I was told is going to happen. This is the biggest untold story in America. God bless and Peace!
