This 1987 Alfa Romeo Milano Gold was originally titled in December, 1988 and is a one-owner example finished in Bianco Argento over a tan cloth interior. The car has been recommissioned by the seller after being stored for nearly ten years and is powered by a 2.5-liter V6 engine mated to a rear mounted 5-speed manual transaxle. Work included draining the fuel tank, replacing the fuel pump and lines, new spark plugs, air filter, and an oil change. Modifications to the suspension include a set of adjustable Koni shock absorbers on all four corners, as well as a heavy duty front sway bar. A non-running Milano parts car can be included in the sale if desired. This Milano is now being offered at no reserve on behalf of the current owner by a friend with a clean Minnesota title in the owner's name.

The Bianco Argento (AR022) paint finish is said to be original and pictures are provided in the gallery showing

areas of corrosion. The floorpans and spare tire area are shown in the gallery below.

The car has been fitted with aftermarket springs, Koni adjustable shock absorbers, and a heavy-duty front anti-sway bar. The car wears the original 15" alloy wheels, and the factory Michelin full size spare is present.

All the interior lights, gauges, and electronics are reported to function. The Gold package featured special trim, map lights, and courtesy lights in the kick panels. The seller notes a 4" crack in the windshield, and will include the replacement windshield from the parts car. The brake system warning light is flashing, and the emergency brake is described to be very loose. The air conditioner reportedly blows air, though needs a recharge. The odometer shows 72,520 miles and is believed to be accurate by the seller.

Power comes from a 2.5-liter V6 engine that produced 155 hp and 152 lb-ft of torque when new. It is backed by a rear-mounted 5-speed manual transaxle and recent work included draining the fuel tank, and replacing the fuel pump and lines. The seller notes that the timing belt will need to be replaced.

The original books, tools, and a matching 1987 Milano parts car with a title are included in the sale. The parts car is pictured below, and several detailed photographs can be found in the gallery.
